Greetings from the Editorial team!

Journal of Neoplasm is an open access journal that follows rapid peer-review process and publishes research articles, review articles, short communication, rapid communication, letter to the editor, case reports, etc. describing frontier research areas in Neoplasm. Internationally renowned scientists describe their own research in the wider context of the field. These journals publish recent developments in treatment of Cancer. Journal of Neoplasm, is Indexed in Google Scholar, China, National Knowledge Infrastructure (CNKI), Publons, Secret Search Engine Labs.

The main aim of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Cancer. The topics covered include: Basal Cell Carcinoma, Benign Neoplasm, Cancer, Carcinoid Syndrome, Cellular Abnormalities, Cellular Abnormalities, Histoid Neoplasm, In Situ Neoplasms, Malignant Neoplasm, Neoplasia, Neoplastic Fever, Oncogene, Organoid Neoplasm, Seborrhoeic Warts, Solar Keratoses, Squamous Cell Carcinoma, Tumor etc.

Authors may submit manuscripts and track their progress through the system. The articles will be managed electronically, examined by a scientific committee and anonymous evaluators and published every month in HTML and PDF formats. We have selective previous scientists who have made their contributions to the scientific community. We are going to release our next Issue and papers will be selected after peer review by members of the Editorial Committee of the Section and the reviewers. It will be a great honor for us and an excellent juncture for you to share your newest scientific work in the field of Neoplastic Fever, Oncogene, Organoid Neoplasm, Seborrhoeic Warts, Solar Keratoses, Squamous Cell Carcinoma, Tumor etc. Your
