Journal of Neoplasm, United Kingdom

**Received:** March 12, 2021; **Accepted:** March 15, 2021; **Published:** March 29, 2021

### Editorial Note

Neoplasm or neoplasia refers to the rapid, uncontrolled and abnormal growth of cells or tissues in the body. I am pleased to mention that during the year 2020, all issues of volume 5 were published online well within the time.

Journal of Neoplasm is a scientific open access journal that specifies and describes the development activities conducted in the field of oncology and cancer research. This journal encompasses the study of genetic and molecular analysis of the uncertain behavior of cells or neoplasm which will facilitate the specific pathologic diagnosis. It provides the stage to discuss the necessary modifications and advancements in the domain of cancer.

The impact factor of IPJN for the year 2019 was 0.84\*. All published articles of this journal are included in the indexing and abstracting coverage of Index Google Scholar, China National Knowledge Infrastructure (CNKI), Publons, Secret Search Engine Labs.

During the calendar year 2020, Journal of Neoplasm received a total of 15 papers. During the calendar year 2019, a total of 15 Editors, 5 Reviewers joined the board of IPJN and contributed their invaluable services towards contribution as well as the publication of articles.

Journal of Neoplasm aims to assemble and reserve precise, specific, detailed data on neoplasm. The journal aims to Publish Research, Review, Short Communication, Case Studies related to cancer. Thus, providing the readers appropriate information through free access and promote the awareness among people.

The wide scope of the journal will aid in contributing a great measure of scientific information related to the advances in cancer medicine.

Once again, we would like to use this open door to thank you for the exertion and aptitude that you add to exploring, without which it is difficult to maintain the high standards of peer-reviewed journals.
